LaCie Big Disk Extreme with Triple Interface

500GB, 600GB & 1TB capacity • USB 2.0, FireWire 800 & FireWire 400

d2 BIG DISK EXTREME

MAXIMUM TRIPLE INTERFACE CONNECTIVITY AND MAXIMUM EXTREME SPEED

COMBINING THE BEST TECHNOLOGIES

LaCie takes the best of its award-winning Big Disk Extreme (with FW400, FW800, and built-in RAID 0) and its Big Disk Triple Interface (FW800, FW400 and Hi-Speed USB 2.0, and built-in spanning), and confirms its technological leadership by launching the new Big Disk Extreme with Triple Interface. Use it to store large amounts of pre-press files, digital video, presentations, image banks and more. Easily share and exchange data among USB 2.0, FireWire 800, FireWire 400 and iLink computers.

CONVENIENT & EASY-TO-USE

This hot plug & play drive achieves RAID 0 performance without complicated configuration. More compact and lightweight than RAID towers, it can be placed in a space-saving upright position, be stacked, rack-mounted and even daisy-chained with other drives (with FireWire) to increase its power. With the "super combo" triple interface solution, this versatile drive allows for true and easy cross-platform convenience.

IDEAL FOR DIGITAL AUDIO/VIDEO PROS

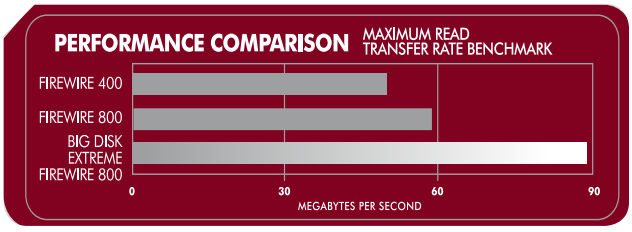
This powerful drive is optimized for media professionals working with high-definition audio, digital video editing, SD video and 2D/3D imaging. Its record-breaking capacity combined with never-before-seen transfer rates make it ideal for data-hungry applications or sharing and archiving large-scale video projects. Chain FireWire peripherals or iLink DV cameras with the drive for maximum performance.

DRIVE HEAT MANAGEMENT

This d2 drive's aluminum body draws heat away from the internal disk toward the external casing, which absorbs and dissipates heat, keeping it safe and prolonging its life and reliability. Because of this unique feature, this drive comes fan-free in 500GB and 600GB capacities, and offers a "smart fan" for the 1TB capacity drive, which is ultra-quiet and has speeds that automatically vary depending upon temperature.

Certified for Pinnacle CineWave

AJA



- Maximum storage in a portable 5.25" 1U form factor
- Archive & exchange among several workstations
- Optimized for digital audio/video professionals
- Ultra-quiet fanless design (500GB & 600GB), "smart fan" control (1TB)

FEATURES

- Maximum speed: up to 90MB/s transfer rates
- Easy-to-use: no software configuration, driver-free
- Built-in RAID 0 for Extreme FireWire 800 speed
- Twice as fast as most FireWire 400 drives
- Transfer rates of up to 50% faster than first-generation FW 800 drives**
- Hot plug & play
- Expandable via FireWire with other FireWire hard drives
- Daisy-chainable with peripherals such as CD-RW, AIT or DV cameras
- Compatible for data mirroring/striping for more security
- Unique, heat-dissipating aluminum design
- Stack, rack-mount or stand upright on your desk

BOX CONTENT

- FireWire 800 to FireWire 800 (9-to-9 pin) cable
- FireWire 400 to FireWire 400 (6-to-6 pin) cable
- iLink/DV (6-to-4 pin) cable
- Hi-Speed USB 2.0 cable (USB 1.1 compatible)
- drive stand for upright desktop use
- external power supply
- LaCie Storage Utilities CD-ROM:
- Silverlining Utilities (Mac OS 9) for advanced drive management
- SilverKeeper (for Mac) software for automatic backup and file verification

SYSTEM REQUIREMENTS

- FireWire 800 equipped computer (9-pin): Mac OS 10.2 or greater; Windows 2000/XP
- FireWire 400 equipped computer (6-pin) or iLink (4-pin): Mac OS 9.x/10.x; Windows 2000/XP
- Hi-Speed USB 2.0 equipped computer: Mac OS 10.2.x or greater; Windows 2000/XP
- USB 1.1 equipped computer: Mac OS 9.x/10.x; Windows 2000/XP
- Intel Pentium II 350MHz-compatible or Apple G3 processor or greater; minimum 64MB RAM

LaCie Big Disk Extreme with Triple Interface			
capacity*	500GB	600GB	1TB
item number	300794	300795	300797
interface	2 x FireWire 800 (9-pin) ports; 1 x FireWire 400 (6-pin) port (compatible with iLink, DV); 1 x Hi-Speed USB 2.0 (compatible with USB 1.1)		
interface transfer rate	FW 800: up to 800Mbits/s (100MB/s); FW 400: up to 400Mbits/s (50MB/s); USB 2.0: up to 480Mbits/s (60MB/s)		
data transfer rate	FW 800: up to 90MB/s; FW 400: up to 40MB/s; USB 2.0: up to 34MB/s		
rotational speed	7200rpm		
average seek time	<10ms		
cache size	16MB minimum		
software configuration	driver-free for Windows XP, Windows 2000 and Mac OS X; Silverlining for Mac OS 9; SilverKeeper for easy backup with Mac OS 9 & Mac OS X		
weight	5.51 lbs / 2500 g		
dimensions (WxHxD)	6.8 x 1.7 x 10.6 in / 173 x 44 x 270 mm		
warranty	US: 1 year limited / Europe: 2 years limited		

*1GB (gigabyte) = 1,000,000,000 (1 billion) bytes. 1TB (terabyte) = 1 trillion bytes. Total accessible capacity varies depending upon operating environment (typically 5-10% less).
**LaCie Big Disk Extreme with Triple Interface maximum performance using FireWire 800 connection when tested and compared with LaCie first-generation FireWire 800 drives. Performance may vary depending on user's data and computer configuration.
